Conception and Fertility Support Consultations

Complimentary information consultation – when you can ask questions and find out how we may be able to help you.

Initial consultations

You will require two longer appointments, each for approximately 2 hours, preferably about a week apart. This may vary slightly depending on your individual health issues – your practitioner will advise you. In these appointments we will

- thoroughly assess your general and reproductive health
- formulate a personal treatment plan
- prescribe nutritional supplements and herbal medicines
- discuss and advise on lifestyle and diet
- advise on the assessment and treatment of toxic heavy metals
- instruct on how to chart the menstrual cycle for diagnosis and conception timing using our MyNFM charting app
- discuss and advise on stress management, sleep and exercise
- refer you to a medical doctor for appropriate pathology tests
- review all tests and adjust your treatment plan accordingly.

Currently initial consultations are conducted via Zoom as our clinic is contact free. All other consultations can be by phone or video chat.

Subsequent consultations

These will generally take place every 4-6 weeks and last approximately one hour.

Acute Care or Results consultations

By phone or email for management of acute cases, discussion of results or alteration to treatment protocols.

Consultation Costs

\$200 per hour, per couple

\$150 per hour, per single person

Starting at \$50 for Acute Care or Results consultations (including by email), according to time taken.

Additional Costs

Conception Guide (includes My NFM charting app and relaxation / visualisation download)

\$99.00

Print and digital Conception Guide

\$129.00

Medical Consultations

Both partners will usually require a consultation with a medical doctor for relevant tests. This will normally follow your initial naturopathic consultations when your practitioner will provide you with a detailed request. Most male patients require a semen analysis and we prefer this test to be performed at an IVF clinic, where more detailed analysis is possible.

Missed Consultations & Late Cancellation Fees

Missed consultations, without adequate notice, incur a late cancellation fee of 35% of the consultation fee + GST.

	1st Consultation	2nd Consultation	Subsequent
Notice required	3 working days	2 working days	24 hours

Cancellations must be given with adequate notice, as per the table above. Consultations are GST exempt but cancellation fees attract GST. Credit card details are taken when you make your initial appointment but will only be used if you miss your appointment or if adequate cancellation notice is not given. Your credit card details are deleted after your initial consultations.

General Information

For your convenience, our naturopaths are available 3-4 days a week, including alternate weekends, with after-hours consultations on most days. Please phone **(02) 9268 9000** to make an appointment.
